**Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of

We purchased two Gyroor Swift Hoverboards as Christmas gifts for our two children, ages 7 & 8. They are so much fun and a huge hit in our neighborhood filled with kids. There are already kids telling us their parents promised to get them one and a mom even told me that she and her husband are using the promise of a hoverboard to get better behavior from their daughter.

The video of our kids riding the boards was taken Christmas Day, the same day they unwrapped their gifts. They are THAT easy to ride. The best part is that my 7 year old son

**Return was quick and easy!**

Reviewed in the United States on December 15, 2018

Color: black **Verified Purchase**

Bought this for my daughter for Christmas with plenty of time to return. Did this only because of reviews on ALL hover boards. Expected I would have to purchase and return a few.

What I found with this unit:

- Initial charge time took longer than the manual suggested. Then charge time after 10 minute test ride took longer than manual suggested for a full charge (figured this wasn't good).
- Everytime unit is turned ON, the Bluetooth is announced at max volume (similar to some BT speakers). This can not be turned off or turned down (would have been enough to return).
- BT connection failed multiple times (15-20) before finally connecting. Unit displayed on iPhone 6 immediately but would not connect.
- App displayed speed but nothing else. Could not change or turn off LED colors, adjust speed control or set to Child Mode. Did not test BT speakers.
- Had only used one Hoover board before. This unit is less stable (could be because Child Mode could not be set). Replacement (different brand) is also more stable.
- In the short time I tested, the unit got into a mode a couple of times, after falling off, that require the unit to be turned off and back on (Loud BT announcement) and once the unit took off after falling off.
- Packing up unit I noticed some kind of spatter in the wheel wells like it was run through something liquid. I only tested on dry hardwood floor so can only speculate it was used before. Probably the QA dept before shipping ;)

All in all, not the best choice for my 11 year old daughter. Opted for a \$13 more expensive board with no Bluetooth or App. This unit meets all expectations.

This is a great option at a great price. My 9 year old daughter absolutely loves it, and was a quick learner as far as controlling it and balancing (which was not my own luck....). It's well built, sturdy, and a bit heavy, but she does not seem to have any issues. The initial bluetooth sound off is quite loud, and you cannot control the volume. That is really my only main problem with the board. Also, it can get scratched up pretty easily when it tilts and it would be nice to have some sort of rubber guard to prevent that. Other than that, it's really a great product!

Color: black **Verified Purchase**

Received as a Christmas gift, so far so good. If your sitting close to it when its charging you can really smell rubber but it's not bad enough to return. It was easy to get the app working and changing the colors and playing music is pretty cool. The battery life is much shorter than we expected but again not a show stopper.

**Worked great once we installed the app to configure it**

After the initial charge the unit worked for about 5 minutes and then started beeping and wouldn't self balance. Turned off and on several times and finally got the unit to work again but it only worked about 15 minutes before it started beeping again. Emailed the seller and they were prompt to respond with troubleshooting. Didn't know about the app so we downloaded it and configured the board through the app and it has worked fine since. Our unit has the lighted wheels and my son loves it. First hoverboard we have ever owned and so far we are pleased with it.
